

# Assess Our Student Teams

---

*Will this workshop help us?*

*How many of these statements apply to your student team efforts?*

## Teams 101

---

- Our instructors understand how to address team elements like work patterns, diversity, and personality in team development/selection.
- Our instructors know characteristics of successful teams and how to develop them.

## Faculty-Student Functioning

---

- Our instructors and students know how best to handle slacking issues in teams.
- Our instructors and students manage/use team conflict productively.
- Our students have a clear understanding of why student teamwork matters to *them*.

## The Instructor

---

- Our instructors understand their role in relation to student teams.
- We have a clear process for students to use when there are issues in teams.
- Instructors are adept at assessing team-related elements of a student team project.

## General Observations

---

- We understand why student teamwork is a necessary part of education.
- We know how to make student team projects successful for our students.
- Our students are engaged in team projects and know why these projects matter.

## Results

---

Could you apply all of these statements to your organization? If not, we can help!
